Ordinarily, I'd write this off as more of Elon's Hype for GigaTexas. Given that it's you, though, OP....🙄

I mean..I'm not Elon. But if I was or knew Elon.. *makes Elon shrug*

..who knows maybe he's an ape and is genius level good at being able to pic up what my scribbles on napkins are putting down.

Think I'm going to scroll through job posts for the Giga and see if there could potentially be a opening that I'd be qualified for.

•Elon if you're reading this I can start Monday•

fucking christ. the datacenter location and Gamestops headquarters being prime real estate for citadels new HQ to keep their junk closely allocated together. move ship near your recruiting center, have your data there to be easily managed better, get free real estate by driving a company to bankruptcy with the icing on the cake of a brand new HQ office on the real cheap side. enjoy those tendies B and invest in lead

I also do not understand the reference. :(

So, thought I'd look up where's the headquarters for Gamestop? LO AND F'KN BEHOLD:  
Grapevine, Texas

NO WAY! Gamestop's headquarters are in a city named Grapevine? The irony is so thick, I can hardly breath.

Grapevine is in the Dallas-Ft. Worth area.... many hours from Austin.

Is that in the Austin area? I'm honestly too lazy to Google it...

Been reading OPs comments and posts, and looking around a little. There's what looks like a loose connection to GME, but it is not blatantly obvious. Some dots have to be connected, and it all ends up looking like a conspiracy WAY bigger than just GME. Yet, the way it will all come to light is for apes buy/hold GME.

My head is spinning. I have to bio, before I shit myself.

In a sideways way, it might be. Something in this helped it click for me:
