So...that countdown...was Madoff supposed to die yesterday? 😞

Maybe Ratio.. was...Madoff. They went dark about the same time.

permalink reddit cedit

[-] MozerfuckerJones (deleted by user) 9 points 1 months ago

I don't think so. Ratio uses dark-skinned emojis, references a lot of rap, has mentioned a struggle of life on the streets - hinting at one point he was very poor.

Doesn't sound like it would be Madoff. Connected somehow probably.

permalink reddit cedit

[-] RO30T 5 points 1 months ago

Yeah, agreed. I was saying it mostly tongue in cheek, with a slight possibility. But you're right, there's a lot of reasons to believe it's not him

It was some guy who made a post about his 'findings'. He went and edited every comment to include a link to his post, but then he deleted every comment as well as his account! I managed to get the screenshots before it was deleted tho!

This guy? u/RatioAtBlessons

[permalink](#) [reddit](#) [ceddit](#)

[–] NotBeButSeeTheSame (deleted by user) 7 points 2 months ago

His username was u/Lunarnautics I think I only saw him maybe once or twice prior to yesterday, he originally had a bunch of comments and replies on this thread. Then he made a post and edited all of his comments on this thread to a link of his post, I had a gut feeling it would be deleted though. His original thing was basically 'I found out who ratio (OP) was'

[permalink](#) [reddit](#) [ceddit](#)

[–] Wen_Worth 4 points 2 months ago

Oh yea I'm talking about this post. for me is says it was removed.

[permalink](#) [reddit](#) [ceddit](#)

The final post he linked to was about how ken shorted the 1% with covid relief funds or something and he was sure that there was another property that was being over looked. His spamming the link everywhere came after he tried to make a post and it kept getting taken down or something. He also said a bunch of stuff like they had bots after him and that now he knew who he was fighting now? It was late and I was stoned lol all this turned into the best interactive novel and at this point, if it's nothing, it's been a fun rollercoaster ride that 10/10 would do again

I was private messaging with this guy yesterday. Can have a little more insight into him if needed. He gave me no hint that he was going to delete his account, but there was definitely a hint of paranoia there.

Well Ratio was right, there would be a Superstonk Meltdown because of them.

Amount of people actually understanding Ratio's thesis, supporting evidence breadcrumbs and "BUY and Hold" message versus amount of people screaming their heads off about him without bothering to understand? Sounds like Citadel won today and loved playing the sub.

I'd like to see the ratio on that.

[permalink](#) [reddit](#) [ceddit](#)

I downvoted all those bullshit posts that labeled this as nonsense

He wanted the best for the sub.

It's a shame. I think Ratio's posts go hand in hand with the "rational" DD. Sucks so many are now screaming it's all shit and are swaying others who were just starting to research things for themselves.

Are you saying you've been powering up with doge in order to buy GME?? Giving yourself more life by buying doge and keeping you in the game longer?

[permalink](#) [reddit](#) [ceddit](#)

[–] RatioAtBlessons 4 points 1 months ago

I'll lather, rinse, repeat any stock or Crypto(Especially Doge) in order to BUY & HOLD more GME.

I take advantage of all opportunities and make use of my knowledge across any sector of the market in order to yield profits. With those profits I BUY MORE.

For some the way is to buy and hold. My way is to Buy, Hold, 💎🐕 GME, make money elsewhere, buy, hold, 💎🐕 more GME.

Who would you say are "others like me"?

If you're inferring I'm somehow "against you", if you remember correctly, I'm actually one of the few that stood up and said something about you being banned.

You're certainly not doing yourself any favours, but if you have information then it's certainly prudent to share it directly and transparently. Even if it's ONE thing.

Maybe we can start with the Mario infinite lives .Gif you shared or the "mysterious countdown".

[permalink](#) [reddit](#) [ceddit](#)

[–] RatioAtBlessons 5 points 1 months ago

Yeah..people like you who want me to change what I do to suite you. Change how I communicate to suite you. Change how I share and join in the crowd to fit in how you should expect or want. One thing or many things..which I already have and continue to do..transparently.

Does that mean that I think that you are for or against me? Not at all because I don't have a position or stance to offer that I have taken a for/against me line of thinking.

There is no.."How dare this person blah-blah-blah..."

There is no you vs. me. There is no one versus me..that I am aware of(or that there should be)..I am just a person with a different way at times..doesn't make me unique or a "God" when it comes to whatever this actually is in the big picture. That's other people and their egos..I don't cast stones though..to each their own.

After getting question thousands of times..I decided that instead of taking offense to it or allowing an ego to develop about it that I'd find ways to have fun with it.

You assume that I'm not telling you what I mean and that it's all just riddles. My response was the answer. Like I said..I had yet to have my coffee..

But the question I now have is..what favours?
