F\NFixit K\N

Since you're throwing money around Ken. Accepting: \$15.5Million for my shares.

Since I know what they're really worth. Expecting: \$25Million for troubles.

I'm not the 🐼 you want to get caught in a cage with. I'm really not. I don't fight fair..I'm from the streets where fighting by the rules'll have you bleeding over your lunch. Ever been jumped for being in the wrong neighborhood after dark? Ever ran for your life? Ever ate out of the garbage? Ever lived behind an abandoned garage? I have. 💎 🤝 forged.

Ever watch your dad sell crack to your aunt? Ever had to bail your mother out of jail? Ever have to wash the blood off of the sidewalk? Betcha neva sold dope to your 9th grade economics teacher..Betcha neva have, betcha kids neva will either.

I'm feeling reel Stewie. Where's my money? Where's my money?

## WHERE IS MY MONEY

You and I both know that I don't play when it comes to my money. If nothing else you've learned that much about me. You and I both know that I've done whatever it takes to beat the odds.

If I've told you once, I've showed you twice. I'm not the orca you want to be on the hunt.

You're scared of one 🐼, meanwhile Kenny you're forgetting that I eat lion hearts for lunch.

*360, 5 left I'm counting it to the day I'm thinking if I did everything I said Or if the year got the best of me  
One thing about time, it waits for nobody You told me, isn't that what they say*

F\NFIxit K\N Damn Kenny what the fuck?!! You've the SEC calling my house! My house bro? What in the actual fuck are you and Beeson doing? You told me that you had this all under control. I made assurances based on your confidence. You came highly recommended. Play your role, do your job, or we will find someone else who will. You've got the FBI following my wife! You've got me following the FBI. You've got my neighbors whispering. I can't take a shit without a text from my office. I've got clients who are not pleased and are willing to walk. You know that I'm over-leveraged.

There are reporters sniffing around it's only a matter of time before more are willing to talk.

What the fuck?!! This GameStop trade has gone on long enough. The loses are wa

How many more times have I told you to keep your ex in line? I told you that her name should have never been 650 Meadows. Her lawyer had papers sent to my house. My house Kenny you still think this shits a game? Pay her more and her husbands boyfriend more!

First Austin, now I'm hearing that 🐼 have found out about Utah?!! 📌

You and LaPierre need to get your houses in order. Now!

This voting law charade isn't going to last as cover forever. The Floyd trail won't last forever. The Covid and vaccines aren't going to be the leading story for too much longer. Sooner or later NFTs will be a part of crypto wallets. Once Elon starts accepting NFTs as down payments for Roadsters..all eyes will be back on us. Jim will fucking flip like the stool pigeon he is.

Zuckerberg has his hands full at the moment, but if you don't think that he's waiting to jump on any opportunity..you're underestimating him and his motives. You're running short on time and you are losing your value.

Three weeks ago you told me next week. What the fuck are you waiting for?

Copying my reply from Stonk.

I was worried about you for a minute there when you haven't posted for awhile.

I love this guy. I'm glad of your Diamond hands from living a life that wasn't pampered and fed by a spoon from daddy big bucks to you.

Go get'em Killa White and Black.

Edit: 360. 5 left. We talking normal or business? Could be 4/12 or 4/14? I'm still excited for 4/16. But so many options getting pinged by Sonar for May and June that is when things could bloom. (Am I doing it right?)

Edit 2: and what is the Welsh doing about it? I'm sure all part of the risk. Maybe she'll get Margin'd Robertson style?

Ratio, I've been reading your posts/comments since your original post. I've been too dumb to decipher them, but I always had a feeling you were leading people to some legitimate info... starting to see some proof that you were right this whole time. So I apologise for doubting, and I thank you for any of the truthful stuff that you have led people to.

This part, "once Elon starts accepting NFTs as down payment for Roadsters..all eyes will be back on us." The Overstock CEO Patrick Byrne, gave a presentation in Aspen about using blockchain for stock trading to keep track of all stocks and prevent short selling. And there was a push back because the powers in place wanted to place flaws in blockchain to continue siphoning money.

LaPierre (NRA) and Griffin are major Republican donors so there is an inferred connection. The NRA is involved in a massive financial scandal but I don't know if there is a connection to Griffin with that.

As for the rest of this I can't tell if someone is breadcrumbing or full of shit. But I'm here for the games.

360 could mean when things come full circle. 5 meaning number of days, like a countdown? Considering todays post was "360.4"

\$25.000.000 p/

Apparently the Sacred Calendar is 360 days, modern society isn't aware of this. And the 5 days added in many Civilizations calendars are 5 days you are meant to rest, Chat

I only know this from watching a documentary recently about sacred geometry and Numbers. Was interesting, but like anything: take it with a grain of salt.

Just thought it was a neat little factoid.

Edit: Here's a link for anyone curious

[After Skool: Sacred Geometry w/ Randal Carlson](#)

Edit 2: btw it's a 2 hr long video, but interesting and worth the full watch.

Nikola Tesla was known for being obsessed with 3. 6. 9. According to him they're the key to everything. If you have Hulu I can highly recommend their movie about him.
