Bloomberg on-air hosts/online FUD writers paid for reddit accounts to post/hide/presumably spread FUD in r/GME

Other version of this post includes "You know where to find me should the ban hammer hit me". Confirming that the other subreddit is indeed compromised and this is the correct subreddit to be in?

I wouldn't go that far to say that it is 100% confirmed compromised on a moderator level, just that if something were to happen this is the place to find them, but I am not OP of course

Alright, alright, alright. Chasing the ID of the OP OG. Down rabbit's hole we go: UT? Check. Active investor in the ATX? Check. Swims with legit whales? Check (even a little Rooster in the mix on the pitch). Couldn't link the rap game until I heard about a certain Beach Bum toking Calvin's Granddaddy Purple and unleashing his inner Rakim. Respect!

Buckle Up

Very likely not, but playing along in OP's style, there are plenty of pieces that can be mashed in to fit the ID puzzle. Started looking after OP noted in response to a meme that Priscilla Allen (two... weeks... RIP!) was his drama teacher. Search the webs for actors in Austin, TX, and Wooderson emerges as King immediately. Nicely fitting pieces: UT alum, extremely active investor in the Austin area, friends/partners with billionaire whales, wealthy brother who is also a very active investor in Texas. He's a writer as well, so the clean/clever wording of the posts fits. The rap game is a stretch/mashed in piece, but SNOOP himself recently called MM the greatest rapper alive after they worked on a stoner movie together. OP also posted a meme/GIF from the movie Contact (another Wooderson pic), so I decided I would officially declare MM is real OP. Like I said, probably not, but it sure is fun reading OP's posts in MM's voice and picturing Mark Hanna.

Still deciphering but I do recall Bailey Lipschultz was the author of the Economic Times article someone mentioned in the old GME sub yesterday saying that meme stock interest is down https://www.reddit.com/r/GME/comments/mk0no5/bloomberg_claims_that_meme_stock_interest_is/

Edit: Have been since 290121 = Jan 29, 2021...and "paid via apps" ... so is this linking back to the posts we saw on Upwork looking for people to shill post to Reddit? Possibly saying they've been doing so since Jan 29?

I wonder if they were able to expense the money used to buy accounts as "research expenditures" for all their hard hitting articles they've been putting out.
