Talking that shit with your back to me, just know it always get back to me.

It was all fun and games until an peeled out in your Kharma..wasn't it enny? Gotcha little mad or big mad? enny, enny

While you were at the Four Seasons with your best ends best friends. I was spending Annie's ends while she was gettin' spit roasted at the outside Weston. *I fucked and left, I hope it ain't no hard feelings (Nah) Was broke as fuck, that's how I started bonds flippin' (washed ups) Get some millions, it'll make a ape love livin'*

So once again there's only all these & whales determined (to uncover the fraud 'n crimes by), huh, and (here) I thought you (enny) were ready to () give it up.

it gon' too funny when those behind 145 N Dearborn St begin to bloom. Huh. Sure would hate to be the neighbors when that capon comes home to roost. Not Etiquette Advice...but the next time that you're having dinner with Kelly, you should really consider not biting off more of the stake than you can chew. Especially not before you're supposed to met with Evans. As you know..he's incredibly föbik. Wanted me to remind you 360.4 left until you Hanover another of .

FYI..Seams those WALES down under aren't too pleased to pieces about the sudden interest in pips...get that fixed before another NFT flicks. Need you be reminded whose wrist will be the first they secure to the bench.

Hurry up it's only a matter of time before this all goes from on [r/SuperStonk](#) to Katie Porter & her white board, if you catch my sent...

Dunno what happened at 145 N Dearborn St but there's a hotel there (The Dearborn) - I guess where KenG and Kelly had dinner and talked plans regarding ETF shorting?

to be their neighbors, I am leaning more towards a reference to the apartment complex nextdoor called the Marquee at Block 37 perhaps? Maybe someone important lives there? Looks like there are corporate apartments at Marquee 37 used for short term rentals. Also the Corporate Suites Network that I guess runs the corporate rentals at Marquee 37 seems sus. Here's a quote from their complex solutions page on their website: "Do you need special reporting or billing arrangements? No worries. "The People you Stay With", can help."

I usually just post support comments and read what other apes have figured out but...

Really just going off of other smarter apes, but in summary:

512/312/801 Area Codes for Austin, Chicago, Salt Lake City

A Wales-born Citadel higher-up located in Australia helped with a currency exchange scam involving PPP loans...that's what I have so far

Also Dias seems to have had fun at the Hard Rock...or the Rock Hard x2 based on the post

Possible. Someone else commented on this post in one of the other subs and said it's Austin area code 512, Chicago area code 312, and Salt Lake City area code 801. Which could also be possible.

Edit: actually looks like it's the area code thing bc ratio left a star comment in response to that in the other thread on [r/gme](#)

Uhhhh. Am I doing this right? I initially misread your title as RIP MDMA and started looking into Alexander Shulgin. *That can't be it*

RIP MDMIA, however, brings up a bunch of bizarre SEC filings for JP Morgan though. One of them seems to trace JPM back to Chemical Bank, which was huge on mortgages and loans...

Ok, further down the hole I go. Pulling the thread:

History: Chemical Bank played a big part in creating the modern government-backed US dollar once they got their bank charter in 1865 with the help of the Treasury. Notably, they also pioneered the ATM (money go brrr?), right after they bought Hanover (I've seen this name in one of your previous posts, OP)

Chat

Search

buyouts, and Walter Shipley was at the center of it all until JPM bought them. Who also bought Bear Stearns. And...oh fuck. That's what that's about.

JPMC was backing 61727-054, and is now the US's largest financial institution, hiding something BIG after a streak of purchasing banks on the brink of bust.

The link seems to be that Citadel Securities Europe is a systemic internaliser for JPMC's Prime Broker role.

Elsewhere, there's a hint of Citadel getting deep into CLOs to the tune of billions, but the site has since been scrubbed.

Is any of this significant? 🤔

"aren't too pleased to pieces about the sudden interest in pips" I think this may be referring to PPP loans?

This article suggest Ken was involved with (at least) the first round of stimulus and the cares act which included PPP.

Either that or possibly a reference to public-private partnerships which is also mentioned further on in the same article. Which Ken is also a part of. Most recently he gave \$5mil to city of Miami for some kind of internet build out to get more people access to internet · Chat

Buckle Up

This line of thinking feels like a dead-end somehow compared to the rest of what's come up in this thread... He has Trafigura in his past history, a commodities trading group...it looks like it was for a brief period of time so I'm not sure what he could have effected that would be significant.

Meanwhile, the company itself has a checkered history that includes being placed under investigation by the US Commodity Futures Trading Commission (CFTC) for alleged corruption and market manipulation relating to oil trading.

If not Ryan specifically, then perhaps some of the same people who were involved in that incident were brought onto Citadel and are engaging in similar behaviors by shorting commodity ETFs or something?

the o with the line over it is apparently used in the Japanese language. Nomura (japanese financial institution, recently screwed by Hwang) hired Samuel Evans in 2018. His bio from the announcement:

I remember someone mentioning something about the movie Concrete Cowboy and the horse riding organization it focuses on. Michael Burry tweeted about the organization too. I believe someone said Susquehanna purchased the land the organization is on for \$1 to build apartments.

Something is there with the Hanover. In 2020 a bunch of hedgies started piling into Hanover insurance stock. Kenny G was one of them, also Two Sigma, and Magnetar.

Isn't the Washington football team stadium in Hanover? Not much else there. Dan Snyder is a world class POS though.

Edit: Also Maryland Live Casino? Bunch of development going on around the airport?

I think this definitely plays a role. Griffin himself confirms it in this article, and mentions possible moves to TX or FL.

I have to give it to you that your quiz show had me entertained for a while, but I don't really get your point, and admittedly, in this form, your information isn't really useful.

The way I see it you

1. Are either just a guy with a bubbly imagination who sees connections where there may not be any. (Or alternatively, someone who doesn't really have anything to say but enjoys the attention.) But I am willing to give you the benefit of doubt.

Leaves two other options:

2. You have some kind of insider knowledge, but no evidence (more like rumors/hearsay), so you are hoping that others may find that evidence.

Or:

3. You know something and have some evidence that is either public or non-public information (or both). One recurring aspect in your stories seems to be those UT files. That would certainly be non-public, and disclosure may not be without risk (even though some journalists happily accept anonymous submissions of course, if that's what you are after). But you are somewhat invested in the case, so I find it hard to imagine that you haven't done Chat

So I'd suggest to end this quiz game and publish a list of publicly available documents instead that you believe deserve scrutiny. This way, you could be useful to this community without exposing yourself to any risk (if that's your worry).
