### I Fedish WhaleTales (R.I.P My DMs In Advance)

Shitpost

*Talking that shit with your back to me, just know it always get back to me.*

It was all fun and games until an 🙈 peeled out in your Kharma..wasn't it Kenny? Gotcha little mad or big mad? Kenny, Kenny

While you were at the Four Seasons with your best ends best friends. I was spending Annie's ends while she was gettin' spit roasted at the 🎵 outside Weston. *I fucked and left, I hope it ain't no hard feelings (Nah) Was broke as fuck, that's how I started bonds flippin' (washed ups) Get some millions, it'll make a ape love livin'*

*So once again there's only all these 🙈 & whales determined (to uncover the fraud 'n crimes by), huh, and (here) I thought you (Kenny) were ready to (💸 💩) give it up.*

🐝 it gon' 🐝 too funny when those 🌱 behind 145 N Dearborn St begin to bloom. Huh. Sure would hate to be the neighbors when that capon comes home to roost. Not Etiquette Advice...but the next time that you're having dinner with Kelly, you should really consider not biting off more of the stake than you can chew. Especially not before you're supposed to met with Evans. As you know..he's incredibly jərmə'fōbik. Wanted me to remind you 360.4 left until you Hanover another of 🍞 🍌 🍖.

FYI..Seams those WALES down under aren't too pleased to pieces about the sudden interest in pips...get that fixed before another NFT flicks. Need you be reminded whose wrist will be the first they secure to the bench.

Hurry up it's only a matter of time before this all goes from 🙈 on [r/SuperStonk](#) to Katie Porter & her white board, if you catch my sent...

To build on this, here is a great example of ties below. This links Secretary of Defense (Lloyd AUSTIN), Coca Cola (which could have been Bubly reference in picture post), Lucas EVANS, you have Archegos, Goldman, ex-CEO of NYSE, Google, and of course you have it funded by two major HF Citadel & Millenium.

To further continue on references, imagine having a SPAC with that much governmental, political, business, bank influence. A SPAC being blank check is only forward looking. It doesn't track current or past financials. Imagine if your goal was to have a "Great Reset" and tank the economy through inflation, you'd spend US dollars and shell them in Cayman Islands under a SPAC - where do Whales go? The ocean. You clean the money put it in a shell company, all while knowing you're tanking the economy through inflation. Then, you buy assets with it and digitize it, enter pump and dumps of crypto.

*Sloan Business school enters the room.* There you have the two Cofounders of this SPAC (Phillip Cooper & John Thain) and someone they both know well by teaching "Blockchain & Money" together at MIT - Gary Gensler.

Congratulations. You now have a new currency. You have the brains to produce it. The gov't to excuse it in court. Then, the Secretary of Defense to enforce it globally.

*take off tin hat*

Info dump, take it or leave it. Just some things I found while trying to decipher this. Going in order from top to bottom.

-Searched for FWT(Fedish WhaleTales) ended up somehow looking into Fenics Go which is an OTC trading platform owned by BGCP and was backed by Citadel at the beginning of last year. Don't know where else this leads. <https://www.prnewswire.com/news-releases/fenics-go-announces-leading-liquidity-provider-citadel-securities-joins-its-electronic-trading-platform-for-exchange-listed-futures-and-options-300989537.html>

-When he mentions "Annie" I believe he's talking about Anne Dias, Ken's ex-wife. outside Weston, I believe he's talking about The Guitar Hotel in Florida. No idea where this leads, probably just trying to stir shit with Ken.

-"Ant it gon' Bee too funny when those Seedlings" no clue, maybe seedlings are alumni?

-145 N Dearborn St is the location of Morningstar HQ in Chicago (there's also an AMC theater but I doubt it has anything to do with this). Morningstar is an "...Independent investment research firm that provides data and research content for individuals, financial advisors, and institutions." I'm guessing they know something about all of this but I'll leave connecting the dots to someone else.

**-Not Etiquette Advice :** Looked for NEA and ended up with Nuveen Amt-Free Quality Municipal Income Fund.

Nuveen AMT-Free Quality Municipal Income Fund is a closed-ended fixed income mutual fund launched by Nuveen Investments Inc. The fund is co-managed by Nuveen Asset Management, LLC and Nuveen Fund Advisors LLC. It invests in the fixed income markets of the United States. The fund primarily invests in undervalued municipal bonds that are exempt from federal income taxes, including the alternative minimum tax. It seeks to invest in securities that are rated Baa/BBB or better by S&P, Moody's, or Fitch. The fund's investment portfol'

Municipal Income Fund. Nuveen AMT-Free Quality Municipal Income Fund was formed on November 21, 2002 and is domiciled in the United States.

Nuveen seems to have some ties to Citadel and is based in...you guessed it, Chicago.

<https://fintel.io/so/us/jrs/citadel-advisors-llc> 2020-08-14 13F filings on a closed position on another real estate income fund. I'm sure there are more ties but I don't really know what to look for there.

-As mentioned by someone else, Kelly is probably Sen. Kelly Loeffler and steak was replaced by stake for a reason. I'm guessing he tried something that didn't go too well.

-Evans could be Will Evans, COO, Commodities at Citadel, ex Goldman Sachs employee.

-j̥erma'fōbik is phonetic for germaphobic which led me to wiki. Trump is also listed as a well-known germophobe who coincidentally didn't want to meet Chris Evans last year. Don't know what to think of this one.

-No idea what 360.4 means. The only other thing I found about Hanover that's not already here is Hanover Square in London. Bunch of banks and financial advisors around there and I'm not sure which ones I'm supposed to be looking for.

-PPP was most likely related to the Citadel alumni PPP loan scam.

-Stand \*You Me Big 512312801s = I'll let you do the rest but as [u/Tulipsniperpewpew](#) said in another thread, 512 is Austin's area code, 312 is Chicago and 801 is Salt Lake City.

I don't want to send anyone on a wild goose chase since I'm not even sure of anything in this post but I'm hoping it can spark the imagination of someone with more wrinkles than I.

Very important catch with MorningStar... VERY.

[FINRA Selects Morningstar for Re-Launch of Market Data Center](#)

FINRA is the agency that publishes the official "Short Interest" reports.

Shortly after the run up in January, FINRA miraculously started manipulating the short interest data / percentages for GameStop and others.

"down under" may be referencing all the turmoil caused by the bankruptcy fallout of Greensill Capital after the Arch Egos bankruptcy? The largest steel producer in Australia might be on the chopping block because of it. That was all part of the semi-fraudulent/super risky loans Greensill gave out, based on businesses listing revenue attributed to prospective future clients against the loan. Many of those prospective clients had never even spoken about doing business with the loan recipients.

<https://www.theguardian.com/business/2021/mar/09/thousands-of-steel-jobs-at-risk-in-uk-and-australia-amid-dispute-over-greensill-debt>

Maybe ken was running some PPP loan fraud that somehow intersects with shady currency deals, since "pips" is likely a reference to the currency trading phrase "percentage in point"?

Oh man, I don't want to go down rabbit holes...

Because this has to be a rabbit hole, the first reference used in the above linked duPont wiki is about everyone's favorite 1990's Texan politician and money bags, [Ross Perot](#), and some sort of shenanigans about stocks not being found back in '74: [WALL STREET: Perot's Orderly Retreat](#). (The link in the duPont wiki is 404, but this is what I assume is the same story)

*...Among other things, it seemed that the firm's customers claimed that they owned about \$15 million more in securities than could be found in duPont, Glore Forgan's vaults. Other brokers were hardly anxious for back-office carelessness on Wall Street to become any more of an issue than it already was—which was certain to happen if the company folded.*

Is it me, or is that a surprisingly relevant string of info to find from an otherwise innocuous typo?
